

UNIVERSITY OF THE THIRD AGE: OVERBERG

NOTICE OF PRESENTATION: 22 JUNE 2018

FOUR POINTS -- THREE MONTHS LATER

Members will recall the presentation made at our Annual General Meeting by Dr R W Johnson. He identified four areas of national life in which it is essential that the country makes positive steps to improve policy and implementation.

These four are:

1. The failing education system, from pre-school to university and including post-school training for employment
2. The restrictions place on the growth of the economy by current labour legislation and practices
3. The size of the public sector must be reduced and less spent on it
4. The state-owned enterprises (SOEs) must be rationalised and made sustainable or sold or closed.

Johnson went on to describe the actions that needed to be taken and the fact that President Ramaphosa faces opposition within the ANC alliance in respect of each of these areas.

Dr Robin Lee will summarise developments regarding each of these challenges since the talk at our AGM and assess whether President Ramaphosa has made progress in any field.

Catholic Church Hall: 10.00 – 11.00

Members: R10

Visitors: R25

A copy of Dr R W Johnson's speech delivered at our AGM is in our library and available to members. Please ask our DVD librarian as you do normally.
